DANIEL KENTFIELD

FULL STACK PROGRAMMER

WORK HISTORY:

2017 - 2019 - Kentfield Group Ltd

- Managed a small team of 3 to create GUI's for inflight entertainment units for an international airline.
- Tasks included creating GUIs from photoshop files, encoding movie files, managing stakeholders and associated business administration.
- Worked remotely whilst travelling through India, Sri Lanka, Europe and Russia.

2017 - Microsoft Azure Inside Sales Engineer

- Worked closely with Microsoft Azure customers to help them better understand and use the Azure platform and services.
- Answered technical questions regarding the azure platform and services.
- Automated and rolled out the email outreach portion of my teams tasks saving approximately 4 hours per week per person.

2016 - 2017 - Founded Skills Junkies

- A monthly subscription box which taught a new skill every month, providing the equipment and instructions to customers.
- Deconstructed and taught skills from lock picking to book binding.
- Involved quickly deconstructing and learning and a new skill very quickly and teaching this to complete novices.
- I built the initial website for this in vanilla JS, HTML and CSS.

2014 - 2016 - Mezzo - Account management

- Account managed several large corporate clients and performed content integration services for them.
- Significantly automated my day to day tasks from 3 weeks down to 5 days.
